

# New Prince George Elementary School

- As Prince George County Public Schools celebrates the construction of the county's new elementary school, this created an opportunity to share news and updates about the project with the community.
- This type of capital project features a number of details that could be of interest to our community, such as:
  - Renderings
  - Project Information
  - Construction Progress
  - Images from the Construction Site

# New Prince George Elementary School Project Page

- Coinciding with the Friday, May 21 ceremonial groundbreaking ceremony at the site of the new elementary school, a dedicated project page was launched on the school division website
- This page will serve as the centralized portal for information relating to the new school's construction, including renderings, updates, and more.

## WEBSITE URL

<http://www.pgs.k12.va.us/newschool/>

The screenshot shows the Prince George County Public Schools website. At the top is the PGCPS logo and navigation menu with links for About Us, Schools, Parents, Employees, Return To Learn, and PGCPS News. The main content area features a breadcrumb trail: [New Elementary School](#) » [New Prince George Elementary School](#). Below this is the title "New Prince George Elementary School" and a large aerial rendering of the school campus. A green banner over the rendering reads "NEW PRINCE GEORGE ELEMENTARY SCHOOL WELCOMING STUDENTS IN FALL 2022". Logos for MOSELEY ARCHITECTS, Prince George County Public Schools, and LOUGHRIDGE are visible at the bottom of the rendering. Below the rendering, the text reads: "Prince George County's New Elementary School", "Nested along Middle Road, Prince George County's newest elementary school will serve as the new home for some of the county's elementary-aged students when classes begin at the school in September of 2022. The campus will replace William A. Walton Elementary School, which has served our community faithfully for over 50 years.", and "The new elementary school will have a student capacity of 850, which will support the educational needs of current students and..."

## Project Summary & Renderings

- The new page features a narrative detailing the new elementary school project, and the design principles being used in the building's construction, along with cost information and the school's expected completion date of Fall 2022.
- Renderings provided by Moseley Architects are showcased in a rotating gallery for users to view. As additional renderings are provided, they will be included in the slideshow.

### Prince George County's New Elementary School

Nestled along Middle Road, Prince George County's newest elementary school will serve as the new home for some of the county's elementary-aged students when classes begin at the school in September of 2022. The campus will replace William A. Walton Elementary School, which has served our community faithfully for over 50 years.

The new elementary school will have a student capacity of 850, which will support the educational needs of current students and those in the future as Prince George County continues to grow. The new campus will feature industry standard safety and security measures to protect students and staff, adequate separation of public and private spaces, and use natural light to illuminate parts of the school, helping to reduce energy consumption.

The new school is also being built with the learning principles of today in mind, where student collaboration and engagement are highlighted. Additionally, the campus will have built-in flexibility to allow for learning spaces to be adjusted to best support the needs of students.

In total, the new elementary school will cost \$32.9 million once completed in the fall of 2022.

## Construction Progress

- The new page features a section that provides brief updates regarding progress at the site. When possible, images of the construction will be paired with the updates.

### Current Status

Posted: June 2, 2021

Following the ceremonial groundbreaking at the site of Prince George County's new elementary school on Friday, May 21, crews continued work, with the footprint of the new school now taking shape. Development of the school's foundation is expected to begin the coming days and weeks.

# New Prince George Elementary School Groundbreaking Ceremony

- Following the May 21, 2021 groundbreaking ceremony, an article detailing the event was published on our website and shared with the local news media.
- Along with the article, photos from the event, school design renderings, and quotes from the School Board and County's leadership were featured.
- The article was posted to the school division's Facebook page following the event and during the weekend after.

## PGCPS Celebrates Construction of New Elementary School During Groundbreaking Ceremony

*Prince George County Public Schools heralded the construction of the county's newest elementary school during a ceremonial groundbreaking event at the new school's site at the intersection of Middle Road and Romans Road on Friday, May 21.*

May 21, 2021 - Prince George County Public Schools heralded the construction of the county's newest elementary school during a ceremonial groundbreaking event at the new school's site at the intersection of Middle Road and Romans Road on Friday, May 21.

Prince George County Public Schools administrators and staff joined the Prince George School Board, Prince George Board of Supervisors, dignitaries, and representatives from the school's designers, Moseley Architects, and construction firm, Loughridge and Company, LLC for the groundbreaking ceremony. Friday's celebration signaled the beginning of a new chapter in the history of Prince George County Public Schools and the community as the new elementary school will serve as the new home for some of the county's elementary-aged students when classes begin at the school in September of 2022.

# New Prince George Elementary School Groundbreaking Ceremony

- Three posts were made about the groundbreaking event on the school division's Facebook page, each including links to the new project page.
- The video of the School Board, Board of Supervisors and other representatives breaking ground at the new school site received over 1,100 views in the first week of its posting.
- In total, the three posts from the groundbreaking ceremony reached over 7,600 people, garnering nearly 1,500 reactions, and several dozen shares across Facebook.
